#### Millennials Are Driving The Worldwide Shift Away From Meat

The percentage of people reducing or eliminating meat from their diet...

"You may not have noticed, but there has been a global shift away from meat in recent years. A full 70% of the world population reportedly is either reducing meat consumption or leaving meat off the table altogether. This is from a report at GlobalData, a leading data and analytics company that works with 4,000 of the world's largest companies...

[There has been a] 600% increase in people identifying as vegans in the U.S in the last three years (GlobalData). Even Walmart, the world's largest retailer, is asking its suppliers to offer more plant-based products."...

# The Berkeley Principles

- 1. All animals deserve to live free of human exploitation now. Delay and excuses are no longer acceptable.
- 2. We will not leave any part of the animal community behind.
- 3. We will not be divided and conquered.
- 4. Religious beliefs, economic arguments and cultural/scientific traditions are not a basis upon which to exploit animals.
- 5. The establishment and guardianship of animal liberation is a non-partisan issue.
- 6. Individual involvement and grassroots action are paramount to success and must be encouraged.
- 7. Success is measured by the growth of the Vegan movement.
- 8. Those who seek our support are expected to commit to these principles.
